Professional Summary

Front-End focused Web Developer with over 10+ years of professional experience building responsive and scalable web applications for enterprise environments. Specialized in ReactJS, JavaScript, HTML, and CSS, with proven experience delivering reliable and user-friendly solutions used in real business operations.

Experienced working in Agile teams and collaborating with backend developers, designers, and stakeholders to deliver complete web solutions. Strong background in enterprise CMS platforms such as AEM, reusable component development, and performance optimization.

Currently expanding backend knowledge using Java and Spring Boot while continuously learning modern web technologies. Actively seeking remote opportunities where I can contribute to global teams and continue growing as a web developer.

Technical Skills

Frontend Development

HTML5, CSS3, JavaScript (ES6+), jQuery, ReactJS, SASS, Responsive Design, Cross-Browser Compatibility

Backend (Learning & Exposure)
Java, Spring Boot, REST API Integration, Microservices Architecture

CMS & Development Tools
WordPress, AEM, Netlify, Git, Website Maintenance, Chrome DevTools

UI/UX Design Tools
Figma, Adobe XD, Adobe Photoshop, Wireframing, Prototyping, Design Systems

Professional Skills
Debugging, Problem-Solving, Agile Development, Team Collaboration, Adaptability, Continuous Learning

Professional Experience

Developer (T-Shaped)

Insight Enterprises | 2024 - Present

Key Responsibilities

- Design, develop, and maintain scalable web applications within a modern microservices architecture, ensuring high performance, modularity, and reliability.
- Build responsive and maintainable user interfaces using ReactJS and SASS.
- Collaborate with backend developers working with Java and Spring Boot to deliver end-to-end functionality.
- Integrate frontend applications with backend APIs to ensure seamless data flow.
- Analyze business requirements and translate them into functional technical solutions.
- Troubleshoot, debug, and resolve issues across development and production environments.
- Optimize applications for performance, accessibility, scalability, and cross-browser compatibility.
- Participate in code reviews and contribute to improving reusable components and workflows.
- Continuously learn and apply modern development practices and emerging technologies.

Key Achievements

- Successfully presented sprint deliverables to stakeholders, clearly communicating technical functionality and business value.
- Reduced production issues by proactively identifying and resolving defects, improving overall system stability.

- Contributed to faster sprint completion through efficient task execution and strong cross-team collaboration.
- Improved code maintainability by applying best practices and structured testing approaches.

Web Designer

Insight Enterprises | 2023 - 2024

Key Responsibilities

- Created user-friendly prototypes and interactive wireframes using Figma and Adobe XD.
- Designed intuitive and visually consistent user interfaces aligned with brand guidelines.
- Developed high-fidelity mockups and design systems for scalable applications.
- Collaborated with developers to ensure accurate and feasible implementation.
- Applied UX principles including usability, accessibility, and visual hierarchy.
- Conducted design reviews and iterated based on stakeholder feedback.
- Ensured responsive compatibility across desktop, tablet, and mobile devices.

Senior Digital Specialist / Front-End Developer

Insight Enterprises | 2020 - 2023

Key Responsibilities

- Developed, maintained, and optimized enterprise web pages using AEM tools.
- Built and updated email campaigns using HTML and CSS.
- Collaborated with designers and marketing teams to deliver digital campaigns.
- Ensured responsive design, SEO-friendly structure, and cross-browser compatibility.

Senior Front-End Web Developer (PCM)

Insight Enterprises | 2019 - 2020

Key Responsibilities

- Developed responsive web pages using HTML, CSS, and JavaScript.
- Created reusable components and layout structures.
- Converted non-responsive websites into fully responsive designs.
- Assisted in troubleshooting, debugging, and campaign page development.

Front-End Web Associate (PCM)

Insight Enterprises | 2016 - 2019

Key Responsibilities

- Maintained and updated existing web pages.
- Implemented layout enhancements and UI improvements.
- Assisted senior developers in development tasks.
- Ensured website functionality and performance.

Education

Bachelor of Science in Information Technology
2010 - 2014

Key Strengths for Remote Work

- Strong written and technical communication skills
- Experienced working in Agile and distributed team environments
- Self-motivated and capable of working independently
- Proactive problem-solving and debugging skills
- Ability to quickly learn and adapt to new technologies
- Focused on delivering reliable, scalable, and maintainable solutions

---

Core Competencies

- Front-End Web Development

- Responsive Web Design
- Website Maintenance and Optimization
- Email Campaign Development
- Debugging and Troubleshooting
- Continuous Technical Growth

Career Objective

To obtain a remote Web Developer position where I can apply my frontend expertise, continue expanding my backend knowledge, and contribute to building scalable, user-friendly web applications. I aim to work with global teams, deliver high-quality solutions, and continue growing as a modern web developer.
